

Ex inspector di polis ta kere cu Natalee ainda ta bibo

Skirbi pa: Elio Nicolaas

Some questions for a Polygraph Test

(Introduction Questions and Control Questions)

1. Are you willing to take this Polygraph Test on your free will to help solve the disappearance of Natalee?
2. Are you Natalee's mother (aunt, father, step-father, brother, friend)?
3. Does Natalee confide in you?
4. Did you know that Natalee used alcohol?
5. Do you know if Natalee uses any kind of drugs besides alcohol?
6. Did Natalee really want to start college this year?
7. Did Natalee want to go to Medical School?
8. Did Natalee have other plans with her life?
9. Did you read Natalee's note in her Yearbook?
10. Did you ask her what the meaning was of the citation of a song that she wrote under her picture in her Yearbook?
11. Did she confide in you that she wishes to travel and see a lot of places before settling down and wanted to be remembered by her classmates and friends?
12. Is there a connection with what she wrote in her Yearbook and her being missing?
13. (Memory) Did you say in your first message, clearly directed to Natalee thru the radio, "We can talk"?
14. (Memory) Did you publicly call on Natalee "to call"?
15. (Memory) Are these remarks in connection with the last few questions?
16. Did you make the Caribbean islands in a special way?
17. Did you ever visit other islands in the Caribbean than Aruba in the past?
18. Were you with you or other member(s) of the family on these trips?
19. Did any other family member visit the Bahama's with Natalee?
20. Did any other family member visit Barbados with Natalee?
21. Did any other family member visit Puerto Rico with Natalee?
22. Did any other family member visit Jamaica with Natalee?
23. Did you ever tell you that she wanted to stay for a while longer on any one of these islands?
24. Did you ever ask for permission to stay longer on one of these islands while you were there?
25. Did you give permission to Natalee to stay longer on one of these islands?
26. If permission was given, did Natalee ever attempt to stay behind on any of the other islands when you were leaving?
27. Did she ever succeed to stay behind on one of the islands, while you left?
28. Did this happen in the Bahama's?
29. Did this happen in Barbados?
30. Did this happen in Puerto Rico?
31. Did this happen in Jamaica?
32. Did this happen anywhere?
33. After returning home, did she stay behind longer than 3 days?
34. Did she stay behind longer than one week?
35. (25 seconds)
36. On the day of the massive/public search in Aruba for Natalee about 1 week after her disappearance or on any other occasion, did you say to someone "I won't see her in this time"?
37. Was that remark in connection with the last few questions?
38. Do you know or believe that Natalee managed to stay behind on Aruba and does not want to be found yet?
39. Do you believe that Natalee is alive and well?
40. Do you know that Natalee is alive?
41. Do you believe that Natalee is being held by someone against her free will?
42. Do you believe that if Natalee is alive and well that her general appearance would still be the same?
43. Would Natalee change the color and style of her hair, eyes etc. in order not to be recognized?
44. If Natalee appears now alive and well, do you believe that she was held by someone?
45. Did Natalee have enough money with her to eventually leave Aruba and travel to other countries?
46. Do you believe that Natalee could have taken another identity, together with a change of looks to do so?
47. Would Natalee have access to money if she stays abroad?
48. Does Natalee have any foreign bank account?
49. Would you or her father send her money without demanding her return?
50. If Natalee has taken the step to disappear, do you think that she eventually will return home on her own will?
51. Would you report to local, state, federal and Aruban authorities if Natalee returns home safely or sends evidence of her being alive?

Note: Some of the same questions, altered to the particular relationship, should also be asked to Natalee's classmates and closest friends.

I have worked closely with agents of the D.E.A., RCMP (Canada), PTJ (Venezuela) and others abroad. I acted for long periods as Acting Police Commissioner of Aruba and left the department in 1982 to start my security company (1982-1996). I believe that I can say that I have more than average knowledge in Police Management and practical experience in investigation and interrogation techniques.

I already had my doubts about the (possible) real story behind the disappearance of Natalee Holloway after 3 or 4 days of such being reported in the media. The doubts ebbed away a little after the arrest of the two secu-

Polygraph Testing

- No accusation whatsoever, just VERIFICATION or REJECTION of facts or rumors
- Use of the polygraph as a means for TRUTH VERIFICATION instead of 'Lie Detection'
- In crisis, people should understand that things are almost never as they APPEAR at first sight
- ALL possible avenues should be taken to piece together the puzzle
- It is already clear that the person(s) to be questioned definitely does (do) not have any direct connection with what happened, but may have valuable information to help find Natalee. THAT is the main objective!
- To help steer the investigation and search for Natalee in the right direction / places
- If Natalee is NOT found alive, all the questions would not have any real value anymore and should be disregarded
- If there are concrete new developments today (June 14th), the taped interview should not be aired. If she has not been found, please air it.

urity guards. Hearing the (possible) alibi of one of these guards, I told many around

Sigui lesa Pg. 35

My name is Elio Nicolaas and I am a resident of Aruba. I am a retired policeman, having served with the police department more than 21 years. Almost all those years were spent in the investigative branch. First as a detective, then detective sergeant/drug enforcement chief. In 1973 I spent 10 weeks in drug enforcement training in Washington D.C.

After a scholarship of 4 years in Holland

(1974-1978) I graduated as a Police Inspector and on my return was appointed Head of the Investigative Branch and Inmigracion in Aruba. I was also appointed as the Drug Coordinator for the islands of the Neth. Antilles at that time (1978) and (before and after the scholarship) worked extensively with the Bureau of Narcotics and Dangerous Drugs (BNDD), which in 1973 became the DEA we know today.

me that they would be freed within 2 or 3 days. This did not happen and I have my personal thoughts about this. The arrest of the 3 'original suspects' who were labeled 'witnesses' at first, while the two security guards were still detained, further broadened

my doubts about this whole nightmare for Aruba and its people.

There are still a lot of questions to be answered, irrespective the fate of Natalee Holloway and it might well be that these three suspects will turn out to be (unwill-

ing?) witnesses after all. I believe that Natalee is alive and possibly (still) in Aruba. My heart goes out to her family and I hope that I am right. If not -God spare- I hope that the family will understand that everything should be done to FIND her. That is the main objective at the moment.

Too many rumors have been

going around since the first week of the disappearance of Natalee and I believe it is time that EVERYBODY that is connected some way or the other to Natalee, should be interviewed in a serious manner. These rumors must be verified. To do this, there is no better way than by using the polygraph. Admittedly, even in the U.S., only a dozen or so states accept the polygraph as evidence in its courts of law. However, most states permit the use of the Polygraph ('Lie Detector') as a very powerful **investigative tool**. I believe that the persons close to Natalee can be interviewed in Aruba by a (accredited) FBI

Polygraphist, who will evaluate this and the results (charts) also be given to a private Polygraphist in the U.S. retained by the Government of Aruba for evaluation.

I have put together 50 ques-

tions, that in my opinion would shed some more light on this matter. Of course a Polygraphist will have to re-write / re-arrange the questions in a way that will benefit the test. This procedure would have been very common in the U.S., and it is a pity that no one has even mentioned this possibility.

Some local media may feel intimidated to publish this point of view that I am suggesting, but I believe that all concerned will be well served by it. Attached please find the questions and a short introduction as to why such a test.

Note: The medium publishing this is not responsible for its contents. I have had no contact with Aruban authorities whatsoever, and some might even not like the idea. I believe however that Aruba has the right to get some answers.
